PROSPECTUS 2023-24

HISTORY OF THE COLLEGE

Late Gobinda Kr. Singha

In the Bargiraj Dynasty, Garhbeta was a small hamlet. As found in history, this place became popular in the art and culture since the 16th century. The river Silabati was a silent spectator of many ups and downs happened in Garhbeta. There is many evidence that occurred in British Rule of oppression and its strong opposition from the people of Garhbeta. To take a frontier role in the development of the nation, the people of Garhbeta established Garhbeta High School in 1888.

It was a milestone in education. The well known leader in 'Quit India' Movement' Late Gobinda Kurnar Singha envisaged to establish one higher educational institution at Garhbeta, and he successfully did this noble work with the full support of the villagers as well as the Zamindar of this area. The auspicious day in which the 'Rarah Bangla' got the door to higher study was 13th August 1948.

Garhbeta had rich cultural heritage in its past. The bank of the holy river Silabati was the mother of many great sons like freedom fighter, educationist, big educationist, big corporate owner etc. The place with religious interest, enchanting sight of the Mahabharata fame 'Gangani' and the varied beauty of pleasant vast green forest and laterite soil attract many visitors with diverse interest on different occasions throughout the year. Much more water has passed through Silabati, Garhbeta adopted

various changes in the course of time. Fertile land, well connected road & railways and experts in various fields put Garhbeta to its inevitable position in agriculture, business and education.

The college had started its journey from Banerjee danga High School with only 50 students on 12th February 1950 and then the college was shifted to its campus constituted by the generous donation of 2.58 acres of land by the local freedom fighter Late Basanta Kumar Sarkar and 9.56 acres of land by Midnapore Zamindar Company. The college is marching forward with a vision to achieve its mission of catering to higher education for students of Paschim Medinipur and the adjoining district of Bankura and Hooghly. In the 70 years of its long journey started just with a corrugated shade in the jungle, the college has now reached significant height and possesses large buildings, well established laboratories with sophisticated instruments and provided with other basic amenities that are essential for an institution of higher learning.

At the inception the College was affiliated to the University of Calcutta with Arts and Commerce stream in intermediate standard. Affiliation upto B.A. (Pass) standard was extended in 1957, followed by B.Sc. (Pass) in 1960 and Mathematics (Hons.) and History (Hons.) in 1964. Subsequently, University of Calcutta granted B. Com (Pass), Zoology (Pass) and Botany (Pass) in 1982 and 1983 respectively. In 1985, the hunger for education of the people of undivided Midnapore received the long waiting and most coveted gift from Vidyasagar University from UGC as well as Govt. of West Bengal. And Garhbeta College became affiliated to the University and the college steadily progressed in all its dimensions of academic sphere. Now the college offers honours in fourteen subjects arts, science, and commerce along with the newly introduced Santali Hons, and four post-graduate courses in Bengali (M.A.), History (M.A.), Mathematics (M.Sc.) and Zoology (M.Sc.). Besides, there are one major vocational course (O.M.S.P.) and two professional course B.P. Ed, (N.C.T.E approved) & BCA (since 2016) also running in the college. These are remarkable achievement of Garhbeta College, and these will offer higher studies to the students of this locality at their doorstep. There has been continuous research activity in most of the departments as well. Ex-students are also in constant touch with the departments in the perspective of higher studies and research.

To send the message that the education is not only for all but for all ages, Garhbeta College has a wing of distance education in its campus namely Netaji Subhas Open University Study Centre. Soon Garhbeta College will take a frontier leadership in the propagation of higher education in the Country.

FROM THE PRINCIPAL'S DESK

It is my immense pleasure to welcome all the students joining Garhbeta College for pursuing their higher studies during the session 2023-2024. Garhbeta College is one of the oldest colleges in the undivided Midnapore District in the post-independence period. The college was established on 13th August, 1948 and we have celebrated the 75th years of establishment on 13th August, 2022 in a befitting manner. A three day programme was organized on and from 13-15th August, 2022 to celebrate the historic moment of our college. The last academic session was very much important to all of us as it was treated as '75th Anniversary Year' of Garhbeta College which is completed on 13th August, 2023. A beautiful souvenir was published to commemorate the great occasion. The 'SMARAK BHAVAN" (the 2nd Floor of Ambedkar Bhavan) for the 75th anniversary of Garhbeta College is under construction and will be completed very soon and it will be inaugurated after puja vacation. The college building has further been upgraded during this anniversary year especially by making interior decoration of the Seminar Hall with modern appliances and also the renovation & interior decoration of Hall Ghar has been completed recently. Many other recent developments have been initiated like modernization of class rooms (Installation of panel board) and improvement of laboratories considering the modernization of teaching learning process as per upcoming NEP curriculum of Vidyasagar University.

The college is now upgraded as an ideal place of education in a vast area (22 acre approx.) also in a very beautiful location in a close vicinity to 'GANGONI' (the 'Grand Canyon of Bengal') in the bank of river Shilaboti with its own scenic beauty like a 'TOPOBAN'. The greenery of our college is a great beauty that attracts all the visitors. This beauty of the campus

alongside the road also catches the eye of every passer-by. It is our dream to promote this institution to be an ideal educational hub of modern times. Different measures have been taken to make our campus plastic free with minimum environmental pollutants. Regular plantation throughout the year has gradually converted our campus as a green campus.

Different effective measures have been initiated by IQAC & NAAC Steering Committee of our college for facing the 2nd cycle of NAAC assessment during this year with a target to achieve a much better score than the previous one. The present faculty position of our college is very rich and almost all the vacancies have been filled up through recommendation of West Bengal College Service Commission.

A galaxy of eminent teachers has served this institution with their endless efforts to teach their students, many of their former students are in several higher positions in India and abroad. Maintaining the heritage of this institution, the present enriched faculty members of the college have tried their best with its sole objective of providing quality education. The faculty strength is very high at present (more than 100) in the college. Many quality teachers have joined the college through WBCSC in various subjects in the recent past. There is only one full time teaching post lying vacant in Physiology. The nonteaching staff strength in the college is also adequate after recruitment of staff in the permanent vacancies.

The college is now in a position of enjoying greater infrastructural facilities due to renovation and expansion of existing college building. A few proposals for financial grants have been submitted to the State Govt. for construction of class rooms and expansion of new Boys hostel. The proposal for roof top solar panel has also been submitted to state govt. for financial grants. The college is already equipped with various facilities like beautiful football ground, Gymnasium with multigym facilities & physiotherapy unit, Volleyball Court, Kho-Kho Field, NSS with Four Units, NCC (two companies) with firing range, modernized College Library and some other valuable assets.

The college library has already been recently modernized with KOHA software for accessing the students online including installation of software for accessing books at home. The college website was also upgraded and developed with a new domain (*ac.in*) giving much emphasis on online teaching learning processes (LMS) since the Covid-19 pandemic situation. Besides teaching, the college has been giving due emphasis in research activities, a number of Research Projects funded by the UGC and other funding agencies are conducted by the faculties over the years.

The college is successfully running Netaji Subhas Open University (NSOU), a distance learning University as study center since 2004affiliating various UG& PG courses for both Arts and Science. The B.P.Ed course in the college is also running successfully since 2003 with various programs organized by the students and the faculty members. The newly introduced four Post Graduate courses and BCA course are running successfully since few years. A few remarkable successes were gained by a student of PG Mathematics in higher studies and notable achievement has been made by many BCA students in campus recruitment programme of some reputed companies like Wipro, Infosys, Deloitte etc. and also in ICICI Bank and already got placement in those concerns in recent past. Keeping in view the demand of time, the college has taken special drive to revive Commerce education with Honours in Accounting & Finance.

The 'Incentive programme' which was introduced by the IQAC of the college for the students and teachers of the college for quality education and also to encourage the students and teachers for higher studies / research have been successfully executed. The faculty exchange programme has been initiated through executing 'Memorandum of Understanding (MOU) 'with many colleges/Institutions/ Organizations to improve the quality of education during the running session. A few departments have organized seminar at National and international level involving the society and other organizations with some eminent speakers of international reputations. A blended mode of education has been introduced in various departments, especially in PG courses since Covid 19 period. The guardians were also met offline as well as online in various subjects during this session for sharing information about the progress of their wards and for improving Parent-Teacher relationship as well. The college fees for all the existing streams (both UG & PG) have been curtailed to a considerable extent keeping in mind the financial condition of the guardians during the last academic session. The Alumni Association of the college has been reconstructed for making relationship between the former students and the present students for their future benefit.

Ragging in the college campus is totally banned in all its departments, constitutional units, including all its premises (academic, residential, sports, canteen etc), whether public or private and anyone found guilty of ragging and /or abetting raging is liable to be punished appropriately. ICC (Internal Complaint Cell) has been activated as per guidelines of UGC to prevent sexual harassment in the campus.

I am very much proud of my institution for having a very co-operative Governing Body, faculty members, non-teaching staff and other associated

staff. The Governing Body of the college has enabled me running a fair and transparent administration and has taken many bold positive steps to improve efficiency in order to provide quality education. I am also grateful for valuable guidance from Vidyasagar University, local authorities like Garhbeta Block-I PanchayetSamity, Police Station& Garhbeta Health Centre. I am also grateful to all our patrons, well-wishers, guardians and local people for their full co-operation enabling me running the college in a smooth way. We would always look forward for constructive and valuable suggestions for paving the path of a better tomorrow and reaching towards a desired destination.

My best wishes to all the new comers for their bright future.

Bachelor of Computer Application (BCA): An Overview

Bachelor of Computer Application (BCA) is an undergraduate professional degree course affiliated to Vidyasagar University. With the rapid growth of IT (Information Technology) industry in India, the demand for computer professional is increasing day by day. This increasing growth of IT industry has created a lot of opportunities for the computer graduates. Bachelor of Computer Application (BCA) is one of the popular courses among the students who want to build up their career in the IT field. This course provides a lot of opportunities to the students who are interested in computer field and desirous of working in the IT Sector.

Keeping in view the above-mentioned opportunities, Garhbeta College has introduced BCA Course in the year 2017 for making the local youth suitable for IT industry or different IT related job. Since then, several systems support with adequate number of computers and other logical equipment have been gradually upgraded to cater the hunger of the newly admitted young minds. A perfect cope for the library facility gets ready with referral books and Journals in the Central library of our college. For the Computer Application Course, as the technology changes rapidly every unit of time, the department and its faculties are careful to feed the students with updated knowledge to cope with the demand of time. The level of education imparted to the students makes them capable in reaching the height of their career in this highly demanding field.

Being a technical department, it takes every effort for the students for participating in different campus recruitment programme of different reputed IT firms across India. The department gathers recruitment news from different informative websites and shares that news among the students about the pool compassing organized at different places in India. The department also prepares the academic credentials of all eligible students and forwards the same to different renowned IT companies for their campus recruitment programme.

It is a great honour for the BCA Department that, this year, some ex-students of the department got placed in renowned IT Companies like Wipro and Infosys in their Campus Recruitment Programme and one pass out of 1st batch is recruited as Senior Officer Trainee in ICICI Bank.

Thus, from the viewpoint of employability, the ultimate destiny of a course, this department has proved its worth within a very short span of time and hope it will uphold the prestige, fame, and glory to enrich the credential of the department and the college.

Commerce As a Career: Scope for better Employability

Commerce is a dynamic discipline which keeps pace with the changes in the real business world. Many charming career opportunities are available in this discipline. Chartered Accountant, Company Secretary, Cost & Management Accountant, Management Executive, to name a few, are the output of Commerce and are marked as distinguished professions from the view point of prestige, status, and earnings. Apart from these, because of some recent changes in the Government policies, Commerce education, in its revised form, finds better prospect and greater employment opportunity in the present scenario. So, besides a Commerce student, a non-commerce student (securing either 45% marks in Mathematics in Madhyamik or passed HS with mathematics) too can take a diversion and build up his/her career with B. Com Honours in Accounting & Finance to the fulfilment of basic eligibility criteria

for admission. However, some grounds are mentioned below which may be taken into consideration for choosing Commerce stream as future career option.

- [1] WBSSC has extended the benefit to the Commerce candidates for becoming a teacher in secondary level through Upper Primary TET Examination according to its revised Norm, 2016 in addition to the scope of this at the H.S. level. Teaching in College, University and Management Institute is also open to them.
- [2] A Commerce student has multiple career options as against others and apart from master's in commerce after B. Com he/she may pursue different Professional Courses like Chartered Accountancy, Cost & Management Accountancy (Costing), Company Secretary, Chartered Financial Analyst, Certified Public Accountant, Stock broker Certification Courses, Indian Institution of Banking & Finance Courses, MBA, different Management Courses with diverse range of specialization.
- [3] The employment opportunity of a Commerce student in Banking sector is greater as some posts of Banks are reserved for Commerce career. Pursuing a Banking course /training after graduation, a commerce student can find Banking job easier.
- [4] There is an officer's level competitive exam. named as West Bengal Audit & Accounts Service Recruitment Examination conducted by the WBPSC where candidates with B. Com or equivalent commerce degrees only are eligible. Commerce graduates also find a dominating position in another competitive exam named as West Bengal Works Accountant Recruitment Examination conducted by the WBPSC.
- [5] Sea changes in the various parameters in the economy and some newly emerged field in the changed scenario like, maintaining Accounts through Accounting Packages, Online Income Tax, GST, tremendous growth of e-commerce and online trading, digital marketing, massive use of computer in almost all activities etc. have widened the scope of employment of a Commerce student.
- [6] Goods & Services Tax (GST) which has come into effect has revamped the existing business process and it has become a challenge for the business houses but an opportunity for the Commerce students.
- [7] More importantly, Commerce students find a vast area of self-employment in the fields like Computerized Accounting, Tax Consultancy, TRP, Investment Consultancy, Online Share Trading, Project Consultancy and other computer related works.

- [8] Over and above, the success rate of commerce students in different competitive examinations is comparatively better.

Because of the reasons mentioned above the demand of Commerce with its updated curriculum on Accounting & Finance tends to increase throughout the state. So, the students are offered to take admission in B. Com Honours in Accounting & Finance in our College, subject to the fulfilment of the eligibility criteria and availability of seats. The College assures best teaching from its qualified and experienced faculties and other educational facilities like use of computers, library books, career guidance etc. for bright future of the students.

All admissions are provisional. Consequence upon the cancellation of their admission for reason deemed valid by this College/University, the students will not get refund of any fees except the caution deposits as per rules of the college on the dates to be notified by the college.

Garhbeta College maintains a campus free of any discrimination based on religion, caste, language or gender. A zero-tolerance policy for any such discrimination is rigorously enforced.

A student remaining absent for fifteen consecutive working days after the commencement of classes without any valid reason will be liable to be dismissed from his/her studentship.

INTERNAL ASSESSMENT AND CLASS TESTS:

As per CBCS curriculums in all streams, class tests will be conducted for internal assessment.

Note: (a) To appear in the class test in a subject, a student must attend 75% of total classes conducted by the concerned department. Schedule of class test examination for honours subject will be declared by the respective departments; however, for general subjects, students are advised to follow the department/college notice board and the college website.

(b) There will be no internal assessment of Practical papers.

COLLEGE ACTIVITIES

SAHELI: THE WOMENS' CELL

The Women's Cell, 'Saheli' of Garhbeta College started its journey in the year of 2011. The college authority feels that there must be a platform for the women employees and lady students at the college to share their views, raise their voice against offences and to bring those to the knowledge of the higher authority of the college. 'Saheli' also deals with undesirable incidents concerning women in the college campus and address different social issues.

Objectives:

1. To prevent gender discrimination & sexual harassment in the college campus.
2. To deal the cases of sexual harassment, in a time bound manner aiming at ensuring services to the victims and terminating the harassment.
3. To recommend appropriate punitive action against the guilty to the higher authority of the college.
4. To grow awareness among the girl students and female staff of the college about women health & women legislative support provided by the constitution of India.

Functions:

1. Promotion of gender equality and documentation & dissemination. Organization of awareness programme for girl students and female staff on different aspects of gender amity, health management & legal rights of women.
2. Consultation with the Lawyer, Doctor and /or a counselor as required.
3. The women's cell 'Saheli' shall be ethically accountable to the complainants as well as the accused and shall do its utmost to provide justice for each Programmes undertaken by 'Saheli' each complaint to the best of its ability.

Programmes undertaken by 'Saheli':

Training programme on food processing in collaboration with women's self-help groups organized by **Saheli** in 2022-23

Sanitary napkin distribution programme at Garhbeta Umadevi Girls' High School, organized by **Saheli** in 2022-23

HELPING STUDENTS OVERCOME GENDER BARRIER

The Girls' Common Room has a sanitary napkin vending machine, that dispenses sanitary napkins for the girl students at a subsidized rate. In order not to create environmental pollution, an incinerator machine is installed in the Girls' Common Room, for correct disposal of the sanitary napkins. Another vending machine and incinerator will be available in the girls' hostel this semester.

ICC (Internal Complaints Committee)

The college has constituted the Internal Complaints Committee (ICC), as per the recommendation of UGC for higher education institutions. The said committee ensures a sexual harassment-free environment, zero tolerance of gender-based violence, and also deals with gender sensitization program to evaluate, assist and support for all those who are studying or working in the institute and addresses the harassment complaint (if any) following as per Section 4(1) of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

PROCEDURE FOR FILING A COMPLAINT WITH ICC

DISASTER MANAGEMENT

An Add-on (offline mode) course offered by the Department of B. P. Ed., Garhbeta College

Introduction

Disaster is a serious disruption of the functioning of a community or society, which involve widespread human, material, economic or environmental impacts that exceed the ability of the affected community or society to cope using its own resources. Disaster management is how we deal with the human, material, economic or environmental impacts of said disaster, it is the process of how we "prepare for, respond to and learn from the effects of major failures". Though often caused by nature, disasters can have human origins. According to the International Federation of Red Cross & Red Crescent Societies a disaster occurs when a hazard impacts on vulnerable people. The combination of hazards, vulnerability and inability to reduce the potential negative consequences of risk results in disaster.

$(VULNERABILITY + HAZARD) / CAPACITY = DISASTER$

Objectives

- > Ensure the safety of all employees and visitors at the site/facility
- > Protect vital information and records
- > Secure business sites and facilities
- > Safeguard and make available vital materials, supplies and equipment to ensure the safety and recovery of records from predictable disasters
- > Reduce the risk of disasters caused by human error, deliberate destruction, and building or equipment failures
- > Be better prepared to recover from a major natural catastrophe
- > Ensure the organization's ability to continue operating after a disaster
- > Recover lost or damaged records or information after a disaster

The course aims to achieve the following objectives:

- ◆ To impart knowledge on handling huge volume of data, filtering, sorting, aggregating and summarizing those into categories and subcategories.
- ◆ To develop knowledge focusing on advanced functions, formulas and productivity tools and deriving different statistical result.
- ◆ To assist in developing spreadsheet and process data using graphs, chart, diagrams, tables etc. to produced results in more sophisticated and timesaving ways.
- ◆ To impart skill of the learner on working with multiple spreadsheets and manipulation of data using Outline, Autofilter and Pivot Tables.

In any competitive examination, our students very often find it difficult to solve mathematical problems quickly. To overcome these difficulties, the Department of Mathematics, Garhbeta College is going to offer an **Add-On Course on Competitive Mathematics: For the Beginners** where the students will be taught simple mathematical tricks that will enable them in solving mathematical problems in lesser time in various competitive examinations.

যে কোনো কম্পিটিটিভ পরীক্ষায় (প্রাইমারি স্টেট, WBP, KP, SSC, CGL, CHSL, GD ইত্যাদি) ছাত্র-ছাত্রীদের অঙ্ক একটি সমস্যা হয়ে দাঁড়ায়। সময়ের অভাবে জানা অঙ্কগুলোকে হয় ছেড়ে দিয়ে আসতে হয় না হয় সমাধান করতে গিয়ে অন্য বিষয়ের প্রশ্ন ছাড়া হয়ে যায়। তাই পড়াবেড়া কলেজ এর পণিত বিভাগ থেকে একটি অ্যান্ড-অন কোর্স করানো হবে যেখানে ছাত্র ছাত্রীদের শেখানো হবে কম্পিটিটিভ পরীক্ষায় নির্দিষ্ট সময়ের মধ্যে যে কোন অঙ্ক সুনির্দিষ্ট ভাবে সমাধান করার সহজ কৌশল (easy tricks)। এই কোর্সে থাকবে বিভিন্ন কম্পিটিটিভ পরীক্ষার পাঠ্যগণিত, বীজগণিত, ত্রিকোণমিতি, জ্যামিতি এবং পরিমিতির অঙ্কের প্যাটার্ন।

Competitive Mathematics: For the Beginners

**Add-On course offered by
Department of
Mathematics,

Environmental Hazards and Sustainability

A Joint Initiative by the Departments of Biological Sciences, Garhbeta College

Environmental hazards refer to any natural or human-made factors that can harm the environment and its inhabitants. These hazards can come in many forms, such as air pollution, water pollution, soil contamination, deforestation, climate change, and many others. The impact of environmental hazards can be severe and long-lasting. It is essential to take steps to reduce their impact and prevent them from occurring in the first place. This includes reducing greenhouse gas emissions, implementing sustainable farming practices, and protecting natural habitats from destruction.

Certificate will be provided to each participant upon successful completion of the course.
Registration fees: Rs. 50/- only

Course Coordinators:
 Prof. Dr. Swatilekha Maity (Ph. 9775551293)
 Prof. Sani Sen (Ph: 8509679590)
 Prof. Alekhya Maity (Ph. 9593004304)

Our Objectives

- To understand the interactions between living organisms and their environment, as well as the physical and chemical processes that shape the natural world.
- To identifying and mitigate environmental hazards and develop strategies to reduce the impact of human activities on the environment.
- Promoting sustainable development
- To inform policy decisions related to environmental protection, land use, and natural resource management.
- To increase awareness and understanding of environmental issues and promote environmentally responsible behavior.

WHAT IS IT ABOUT

Yoga is a way of life that can be applied to one's own life irrespective of age, gender, occupation, society, circumstances, problems and sufferings. It can be part of any human effort-personal, educational, social, family and spiritual. Since it comes under both science and an art, there are theoretical and practical aspects of Yoga which are taught in the course.

- The Certificate Course in Yoga is built for beginners who wish to develop a career in Yoga.
- The emphasis in the course is on having the right perspective through the first-hand experience and learning the science and the practice of yoga.
- The course is designed primarily to educate those interested in becoming a Yoga Instructor.
- It helps the student to understand the types of Yoga and imports the practical knowledge of Yogasana, Mudras, Yogic Therapy, Pranayama and Meditation.

AIM OF THE COURSE:

The aim of yoga is to control the mind.

1. A man who cannot control his mind will find it difficult to attain divine communion, but the self-controlled man can attain it if he tries hard and directs his energy by the right means.
2. The main aim of yoga is to integrate the body, mind, and thoughts so as to work for good ends.
3. By practicing yoga, the mind will get sharpened and concentration and memory power may develop. Thus, minds could be canalized for thinking the right good thoughts. Then the good and healthy thoughts will develop in the right direction.
4. Yoga will pave the way for an individual to do any action peacefully and perfectly.
5. Through systematic and regular Yogic practices, the body may be made healthier and its resistance power to fight against the diseases could be enhanced.

Objectives of Yoga

The main objectives of the Yogic practices are to make one free from

- ☒ Diseases,
- ☒ Miseries
- ☒ Ignorance,
- ☒ Egoism,
- ☒ The afflictions of old age,
- ☒ Fear of death etc.

CONSTITUTION OF INDIA

AN ADD-ON COURSE OFFERED
BY THE DEPARTMENT OF
POLITICAL SCIENCE,
GARHBETA COLLEGE

Objective of the Course

কঠিন কাজ সহজে এবং কম সময়ে কে না করতে চায়? তার উপর সেটি যদি অঙ্ক হয়ে থাকে, তাহলে শিক্ষার্থীরা দুই লাইনে অঙ্কের সমাধান খুঁজে পেতে চায়। এই অঙ্কই বেশ যত নষ্টের গোড়া। কিন্তু মজার বিষয় হল, কঠিন কঠিন অঙ্কের সহজ সমাধানের পথও বাতলে দিয়েছিলেন একজন ভারতীয় গণিতবিদ। নাম দিয়েছিলেন বৈদিক গণিত, যার পোশাকি নাম বৈদিক ম্যাথমেটিক্স।

গণিতবিদ চেয়েছিলেন, কঠিন অঙ্কের সমাধান শিক্ষার্থীরা যাতে সহজেই করতে পারেন।

বৈদিক গণিত আদর্শে সাধারণ অঙ্কের থেকে একটু বেশি সৃজনশীল। সহজ ভাবে যে কোনও ধরনের অঙ্কের সমাধান করা সম্ভব এই 'বিশেষ' পদ্ধতি অবলম্বন করলে। যারা প্রতিযোগিতামূলক পরীক্ষায় উত্তীর্ণ হতে চাও, তাঁদের ক্ষেত্রে পরীক্ষার প্রস্তুতির জন্য অন্যতম উপায় হতে পারে বৈদিক গণিতের অভ্যাস করে পড়াশোনা করা।

কারণ এই পদ্ধতিতে যোগ, বিয়োগ, গুণ, ভাগ-সহ শতকরা হিসেব, অনুপাতের হিসেবের মত লম্বা এবং সময়সাপেক্ষ অঙ্কের সমাধান কয়েক মিনিটের মধ্যে করা সম্ভব। ত্রিকোণমিত্তির সমস্যা সমাধানের ক্ষেত্রেও উপকারি এই বৈদিক গণিত প্রক্রিয়া।

A Value-added Course Offered by

Dept. of Mathematics,

Garhbeta College

Climate Change is REAL

Climate change refers to long-term shifts in temperatures and weather patterns.

Such shifts can be natural, due to changes in the sun's activity or large volcanic eruptions.

But since the 1800s, human activities have been the main driver of climate change, primarily due to the burning of fossil fuels like coal, oil and gas.

The average temperature of the Earth's surface is now about 1.1°C warmer than it was in the late 1800s (before the industrial revolution) and warmer than at any time in the last 100,000 years. The last decade (2011-2020) was the warmest on record, and each of the last four decades has been warmer than any previous decade since 1850.

It is extremely important to understand its impacts, ways to reduce the human role and methods to deal with the devastations caused by this phenomenon.

Emergency care

Objective

Preserve Life

Preserving life is the primary objective of doing first aid. This involves making sure that the injury is not a life-threatening one for the individual. Someone who is trained in first aid should check for vital life signs as well, to see if an injury is life-threatening. These signs include evidence of breathing, movement, responsiveness, heart rate, and any bad external injuries.

Prevent Injuries from Getting Worse

To prevent the injuries from getting worse, a first aider should not attempt to move the patient if they are currently bleeding or have suffered a fracture.

Relieve Pain

First aid is there to reduce suffering for the patient, by making sure they are as comfortable as possible. This can involve giving them pain medication, elevating wounds, as well as ice packs.

Aid Recovery

First aid helps a person heal their wounds, both in the short term and long term. Aiding recovery involves putting pressure on a bleed and wound bandages.

Protect the Unconscious

Unconscious persons are vulnerable and require more protection. Start off by identifying and clearing away any potential hazards from the person. This is to avoid greater harm to the unconscious person and prevent harm to the first aider.

Bringing safe zone

Bring the patient safe and if any difficulties then it should be hospitalised.

Certificate will be provided to each participant upon successful completion of the course -
Registration fees : Rs. 50/- only

EMERGENCY CARE FOR INJURE PERSON

An Add-on (offline mode) course offered by the Department of B.P.Ed, Garhbeta College

Why this Course

Human beings too, like every other living being, are part of the nature. But forgetting this has helped us to "use" nature just as natural resource, to be used for our material prosperity. We have destroyed the environment so much that our food, water, the air we breathe, everything is polluted and poisonous now. Nature is running out of resources, the weather is changing, diseases are growing, in short, we are damaging the earth beyond repair.

It is of utmost important that we become sensible about how we grow food, along with everything else that we **MUST** do to reduce our harmful impact on the earth. This 12-week course will give students an overview and in-depth understanding about various aspects of sustainable agricultural systems that can help preserve soil fertility, prevent water pollution and protect biodiversity.

Course Plan

Hours	Module
1	1. Overview of Sustainable Agriculture
2	1. Farming Systems & Integrated Farming System
2	1. Sustainable Farming and Health

CERTIFICATE COURSE ON SANTALI

Offered by Department of Santali, Garhbeta College

Course Outcome: Students will acquire ability to speak Santali fluently

Duration of the course: **33 Hours**; Mode: **Blended**;

OBJECTIVE:

LaTeX is widely used for scientific publications and a variety of other forms of publishing. It not only produces attractively typeset documents, but it also enables users to swiftly tackle the more technical aspects of typesetting, such as entering mathematical equations, constructing tables of contents, referencing and constructing bibliographies, and maintaining a consistent layout across all sections. The prospects with LaTeX are limitless due to the vast number of open-source packages offered.

So, our main objectives in running this course are

- To introduce the students with a document preparation system that allows them to create professional-looking documents without using a word processor.
- To help the students to excel at typesetting equations while writing long, structured documents. It is freely accessible for most of the operating systems.
- To make the students know importance of this software for publishing research articles, papers, project reports and books and thereby help them to be comfortable with the software.
- To make the students learn how to utilize LaTeX to isolate a document's content from its aesthetic, i. e., once they type the content of a document, they can easily change its design.

Certificate will be provided to each participant upon successful completion of the course.
Registration fees: Rs. 50/- only
